

Curbside Testing

Welcome to Frederick Health curbside testing. We are here to serve our community and promote wellness and safety to prevent the spread of COVID-19. Curbside testing is a safe and convenient way to be tested while avoiding possibly spreading or being exposed to the virus in a doctor's office or the Emergency Department. We operate daily from 7-11 A.M.

A swab was obtained for COVID-19.

- Your swab will be processed in the Hospital laboratory, and your results will be available in 72 hours or less.
- **We will reach out to you via text or phone (at the number you provided while registering) with your results once they are available.** If you receive a text, please log in with your First Name, Last Name, and DOB to view your results. Results calls from Clinical Staff are made between 7 A.M. and 3:30 P.M.
- If you are a Frederick Health employee, Employee Health will contact you with your results.
- While waiting for your results, please review the educational material on the other side of this page.
- If you are going to seek medical attention at your primary care office, urgent care, or the Emergency Department, please call ahead to obtain instructions.
- If you need to consult with a medical provider and it is not an emergency, Virtual Visits are available to you at [FrederickHealth.org/VirtualVisit](https://www.frederickhealth.org/virtualvisit).
- work notes are not available through the Village Testing Site. You would need to contact your primary care provider.

If you need a copy of your results or have questions about your testing, please call 240-566-3152.

Due to high testing volume, we are experiencing increased turnaround times for results and increased phone calls. If you do not speak with one of our team members, please leave a message, and we will return your call within 48 hours.

If at any time you feel short of breath or are having a medical emergency, call 911 or go to the Emergency Department. ***Please inform ER/EMS that you have been tested for COVID-19*** so they can be properly protected.
