

Fred Co Kids 2018 Reading Challenge

PERSEVERANCE

A determined attitude that makes you continue trying to achieve something difficult

A boy has a dream to catch a star. He tries everything he can to catch a star— jump up and grab it, use a life preserver as a lasso, and then thinks of other possibilities like using a spaceship or getting a seagull to help. In the end, the boy's wish comes true in a somewhat unexpected way.

Using a water table, let your kids try to catch their own stars with fish nets!

Week # 1

Fun questions to ask your kids after the book:

- ★ How would you catch a star?
- ★ How many stars do you think you could catch at one time?
- ★ If you caught a star, what kind of activities would you do together?

Make a galaxy sensory bottle with a water bottle, star confetti, glitter, mineral oil and food coloring (aka calming jars).
