

Fred Go Kids 2018 Reading Challenge

Week Four

#fcpreadtome

PERSERVERANCE— A determined attitude that makes you continue to achieve something difficult.

A girl sets out to make the most magnificent thing - it should be easy enough, right? She knows exactly how it will work, all she has to do is make it. But making this most magnificent thing turns out to be anything but easy and she tries and fails repeatedly. Eventually, she gets really mad and decides to quit. But after her dog convinces her to take a walk, the girl comes back to her project with a new perspective and manages to get it just right.

Choose your own mindset adventure: Write your own story with a character who faces an obstacle or challenge. **Write 2 different endings** - one where the main character has a Fixed Mindset and the other with a Growth Mindset.

Why is the girl angry?

What does the girl do to stop being angry?

How does the girl's attitude change during the story?

Have you ever tried to make something magnificent and it didn't work?

How did you change your attitude and make your "thing" magnificent?

Make a Robot Dog out of items you can find around the house! In this picture, the robot dog was made from construction paper, plastic straws and a paper cup. Just remember, if you can't seem to get your Robot Dog just right, take a walk; or ride your bike, dance to music, read a book. Then come back to your project and try again, but don't give up!
