 WEEK 49 #FCPREADTOME

On a cold, dark day in a dull, grey town, little Annabelle discovers a box of brightly colored yarn. She knits a cozy jumper to keep herself nice and toasty warm and finds, to her surprise, that she still has yarn left over. So she decides to knit her dog a jumper too but - hang on a second - she STILL has extra yarn.

CARDBOARD WEAVING

Step 1. Find various circle objects in your home and trace them out on cardboard. Cut out the circles.

Step 2. Follow the steps below to get your circle weave started. 1) draw spokes on your wheel with a pencil and add a cut notch. You can be exact and use a ruler if you want. As noted above, we gave our wheel an even number of spokes so you can see some of our beginning yarn peek out in the final weave, but if you don't like that look, start with an odd number. 2) Tape a piece of yarn to the back of your circle. 3) Run it across and then to the adjacent cut. 4) and 5) Repeat until you have strings that follow your pencil lines. 6) Tape your ending yarn to the back.

Step 3. Tie the yarn you want to start weaving with through the center.

Step 4. Go around the circle over and under as shown below.

Step 5. Add beads along the way. Add new color yarn by simply tying it to the one on the loom.

Step 6. When you're done, tape the yarn to the back of your circle.
